

FOOD PLOT PROGRAM

Endorsed by

Southern
Habitat
Services

The ideal combination of seeds and science is the secret to hunting lease food plots that produce game animals exceptional in size and robust in health. Legacy Wildlife Services has developed relationships with various resources to provide its services, vegetation seed and other products to our clubs at significant savings.

Mossy Oak Biologic products are specifically formulated to meet the nutritional needs of wildlife. BioLogic researchers seek out the finest plants, seeds and cultivars from across the globe, extensively test them in every region of the country and create forage combinations precisely calibrated to deliver maximum yield, palatability, animal size and herd health.

Food plot development and maintenance products and services may be ordered directly through Southern Habitat Services, an affiliate of Legacy Wildlife Services. This turnkey program will include:

- Customized Food Plot Prescription
- Food Plot Clearing and Preparation
- Soil Testing
- Liming and Fertilization
- Planting and Maintenance
- Mowing and Herbicide Treatment
- Stand Installation

Call Southern Habitat Services for more information on how to create and install a total food plot program, featuring Mossy Oak Biologic products, for your club property.
